Aero 1500 Series, *Aero* 2100 Series

New lighter, smaller Palm-size PC and new 24 MB, 64K-color models

***Compaq Aero* 1530**

For mobile professionals who need quick access to critical information while on the road, Compaq Palm-size PCs deliver new lightweight and easy-to-read Windows® CE-based devices.

The *Compaq Aero*™ 1500 and 2100 Series PCs provide the convenience busy professionals need, with standard Personal Information Manager (PIM) features such as calendar, contacts, tasks, note taker and inbox—and ease-of-use features such as instant-on/off, user-customizable program buttons and one-hand operability. QUtilities and QMenu software enable users to find frequently used features even faster and provide overall improved manageability of the device.

With its 5.2 oz. light and 0.5" thin design, the new 16 MB *Compaq Aero* 1530 is our ultra-thin, feature-packed device operating on Windows CE. Its 16 gray-scale, 240 x 320, non-glare display provides more realistic images than competing 2-color displays. Its Lithium-Ion battery lasts up to 14 hours for extended mobile productivity[1]. And a CF card expansion slot enables outstanding productivity, via CF modem, memory expansion and LAN cards. The new *Compaq Aero* 2180 features 24 MB of memory and a high-resolution 64K-color display that is easy to read anywhere—even in direct sunlight.
